## EMPLOYMENT OPPORTUNITY

### INTERMEDIATE RECLAMATION SPECIALIST

**Location:** Sundre, AB

Applicants should have a good understanding of soil science and reclamation and farming practices in western Canada. Basic understanding of the oilfield is a definite asset. Valid Class 5 or equivalent Alberta Drivers License required.

**Required Qualifications:**

- Bachelors Degree or Diploma with emphasis on soil science.
- Good oral and written communication skills
- Good understanding of western Canadian agriculture and oilfield practices.
- Minimum 3 years experience in supervising oilfield reclamation in western Canada.
- Experience in tracking and managing reclamation costs.
- Experience with assessment of oilfield contamination issues.

**Duties:**

- Assist in assessing reclamation projects according to Alberta Environment reclamation criteria.
- Describing and sampling soils.
- Developing reclamation plans for abandoned wellsites and supervising equipment on sites.
- Developing sampling plans and carrying out investigations of potentially contaminated sites while supervising drill trucks.
- Writing professional reports outlining findings of field investigations.
- Conducting file reviews for Environmental background

This position requires a significant amount of travel throughout Alberta. Ability to provide a 4x4 truck for work is desirable. Compensation is commensurate with qualifications and experience.
